

OUR MISSION

“ To provide exceptional skilled services that will sustain health and life in the home environment. We are committed to deliver excellent care through constant collaboration with our interdisciplinary team We thrive for boundless energy and creativity, guided by the values of transparency, integrity and social responsibility.”

ANX Home Healthcare was established by Thomas Allandale Rocas III and Lisa Mangubat in August 2007 with a vision of client-focused quality care and service for home-bound patients. We offer intermittent physician-ordered skilled health care services for patients who are homebound due to illness or injury.

We have worked with physicians and families in developing custom home care solutions for patients requiring specialists in wound care, diabetes management, cardiac rehabilitation, physical therapy, occupational therapy, speech therapy, nutritional assessments and dietary counseling.

Our services are provided by a highly skilled interdisciplinary team of experts with over 35 years of combined experience in the health care industry. Our skilled nurses hold Advanced Cardiac Life Support Certifications and are Board Certified Wound Care Specialists, so you can be assured of the highest quality care.

Best of all, we utilize a proprietary point of care documentation system that facilitates medical record keeping, eliminates data entry errors, and reduces the need for extensive paperwork. This ensures that our health care providers have the most accurate patient information on hand. Because all information is distributed and stored digitally, we are able to quickly share patient records with all parties involved, from referring physicians, case managers, social workers and nurses, to caregivers and family members.

ADMINISTRATOR | Thomas Allandale Rocas III (RN, BSN, CWCN) has been in the health care field for over 17 years, with extensive experience in Advanced Wound Care, Acute Care and Home Healthcare Administration. As Administrator of ANX Home Healthcare, Thomas strongly believes in a holistic approach to health care, providing medical, spiritual and social support to patients with life-limiting illnesses. As a key contributor to local, state and federal legislation affecting the health care field, he continues to stay on top of the latest medical trends and best practices for providing comprehensive home health care. His passion for research has resulted in groundbreaking initiatives that have shaped wound care management nationwide.

DIRECTOR OF PATIENT CARE | Lisa Mangubat (RN, BSN) has over 22 years of extensive experience in the health care industry. She began her career as an Internal Medicine Clinical Nurse at La Mirada Medical Center in Southern California, performing comprehensive patient assessments, providing assistance in diagnosing clinical ailments, and designing treatment plans in partnership with doctors. She also provided patients with training and education on preventive care and adherence to strict treatment plans. Lisa continues to remain involved in establishing and monitoring standards for home health care, coordinating all direct and indirect patient services provided by the clinical agency personnel, and ensuring proper maintenance of clinical records in compliance with local, state and federal regulations.

We pride ourselves in our ability to quickly respond to physician and clinician requests for patients with home care needs. To refer a patient to ANX Home Healthcare for service, all we need are:

- Physician’s order and/or verbal authorization
- Patient’s name, address and phone number
- Current insurance information
- *(Optional)* Current Medication List and other pertinent medical information

We will initiate health care services within 48 hours of referral date or on the date specified by the physician. We accept many insurance policies including Medicare and Private Insurance companies with PPOs.

To learn more about our Referral Partner Program, insurance policy or to schedule a free consultation, contact us at **(650) 991-5177** or email us at **info@anxlife.com**.

ANX Home Health Care provides the following services:

- **Skilled Nursing** – comprehensive wound and ostomy care, pain management, diabetes management, cardiac rehabilitation including blood pressure management, anticoagulant medication management, and leg edema prevention and management, secondary to chronic venous insufficiency.
- **Physical Therapy** – home exercise program, balance/coordination training, post-surgical rehabilitation, orthotic training, and instruction in use of assistive devices.
- **Home Health Aide** – personal care and activities of daily living (ADL) assistance
- **Occupational Therapy** – training and restoration of dexterity required for daily physical function, including fine motor skills, orthotics/splinting and use of adaptive equipment
- **Medical Social Worker** – coordinate patient access to community resources for counseling, including individual and family therapy, as well as determine needs and requirements for alternative living arrangements such as assisted living and nursing facilities.
- **Registered Dietician** – nutritional assessment, counseling and education; development of customized dietary regimens with sensitive attention to patient’s cultural/religious constraints.
- **Speech & Language Therapy** – treatment and therapy for voice disorders, speech intelligibility, auditory comprehension, cognitive ability, functional communication, swallowing/oral-motor skills and verbal fluency.

We are Medicare and California Department of Health certified, and accredited by the Joint Commission on Accreditation of Health Care Organizations (JCAHO).

WHAT OUR CLIENTS SAY:

"I can't say enough about the group ANX sent me. They took very good care of me. I recommend them to anyone who needs home healthcare. They are the BEST."
- Dolores Arbeia

"Thanks to Allan and Lisa for taking such good care of me. I'm now well and happy. May God bless you both." - Irene Wu

"The ANX staff is always courteous to me and my family, and promptly respond to my needs, concerns and problems. I would recommend ANX Home Healthcare to others!"
- Marcelina Esguerra

Home is the place your heart resides...Home is the place that you decide...

- Lisa Emry
